

EMCC is proud to announce that the Division of Instruction decided to implement eBooks and digital content into selected courses. More than 50 sections of courses will be considered E-sections and these sections will use eBooks as the primary textbook source.

Students and advisors will be able to recognize an E-section by the "E" designation in the course section number (e.g., GT01E, GT02E, etc.). As a student enrolled in an E-section, the eBook and other digital content will reside in your Canvas space, which is easily accessible through the LEO portal, using a desktop or laptop computer, tablet, smartphone, etc. As an end user, you will receive specific details for each eBook assigned to you, including any other downloading or printing options.

To ensure consistent and affordable access to instructional material, an eBook will be assigned to 100% of the students enrolled in an E-section of a course. So, when you enroll in an E-section of a course, you are automatically assigned an eBook and the cost is added to your tuition and fees for that course, as opposed to a separate cost assessed in the EMCC Bookstore or some other retail source used for purchasing textbooks. Regardless of your Financial Aid status, your eBook is automatically charged to your student account and can be paid for just like all of your other tuition and fees, but you will achieve a significant savings when compared to traditional printed textbooks.

Though we love eBooks, we know that sometimes paper is a nice option to have around. To meet this need, an on demand paper copy of the book may be purchased through your campus bookstore. Check with bookstore to see if a loose leaf is available. The ebook will still be needed along with the loose leaf (no assignments/courseware can be attached). If you have any questions or need assistance with your materials contact your instructor or check out the Vital Source Solve knowledge base or reach out to Vital Source Customer Experience Team at <https://get.vitalsource.com/contact-us>.
